

## RD Client VPN Connection (for Mac)

Below are 3 easy steps to connect to a network drive:

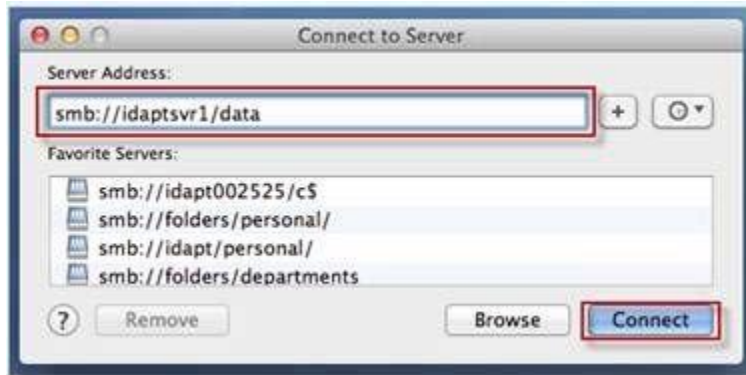

1. Launch the "BIG-IP Edge Client":

2. On the top menu bar, click on Go and then on Connect to Server:

3. Enter the desired network share location (smb://idaptsvr1/data in this example) and click on Connect:

4. Last step is to enter your U1DOME user ID and password and click on Connect:

5. Now a window will open with the network share drive contents and a new desktop icon will show as well.
